

Latin American & Caribbean Bioenergy Community of Practice

Online Session

BIOMETHANE IN ARGENTINA: POTENTIAL, PROGRESS AND POLICY CHALLENGES

December 3, 2020

Bioenergy community of practice (BioE CoP)

A peer-to-peer learning network

Launched in 2016, with a thematic focus each year

1st year: Advancing bioelectricity development

2nd year: De-risking investments in bioelectricity

3rd year: Policy and market environment for sustainable biogas investments

4th year (re-launch 2020) Integration of bioenergy in climate and energy policies

Activities 2020

Facilitating Technical Assistance to Bio-E CoP member organizations in Guatemala, Costa Rica and Colombia

Six online sessions to disseminate information on innovative technologies, policy frameworks, business models, and tools for bioenergy development.

Exchange session and brief report on results of technical assistance in Guatemala

Online workshop on The contribution of bioenergy to decarbonization of transport, organized jointly with LEDS GP's Transport WG and LEDS LAC's Resource Efficiency WG

Pilot project Practice to policy: A bottom-up analysis of barriers and policy options to enhance biogas development in Colombia (to be finalized in March 2021)
